

# OMAS

News Letter  
April 2008

**I myself am happy to say that our pond is getting more and more use as time goes on. We have a great flying club with a pond to boot, lets all make a commitment to use the club to its fullest extent. We should see some more float flying this year, and our biggest event will be April 19 as the Skynights will be here to use our pond. I know I will be there with the Wilga.**

## *Club Clean-up Day*

*The club doesn't look all that bad but is in need of some maintenance. We are asking for help and hope that you will respond to the plea. Some of the things we are going to work on is, picnic benches need attention, ramp for tool shed, limbing the tree closest to the runway, general pick-up of rubbish, ect. Clean-up day is planned for Saturday April 12, and I think burgers will be on the grill.*

# **OMAS News**

## **Board Meeting Minutes**

**Saturday March 29<sup>th</sup> we had our second board meeting, all members present except Robyn. She had to work. One of the things talked about was the annual OMAS air show and it was decided to have it held on August 16<sup>th</sup> and 17<sup>th</sup> this year after the Hillsboro Air show. Field clean-up day was set for April 12. Some of the things addressed for the clean-up day was, ramp for tool shed, limb tree, windsock replacement, repair and possible paint for picnic benches. There was also discussion about the rocking of the parking area and the road into the club, Leon Arnoldi, Joe Slivinski, John VanLoo are in charge of this task and have the boards permission to proceed with this project. Jay is going to investigate the AMA insurance protection on boating off the pond.**

## **Club Meeting Minutes**

**There were 11 members present and a prospective new member showed up for a total of 12. The barbeque was fired up and we all enjoyed a burger, it was great for those of you that didn't come I want you to know that you really missed out.**

**We briefly went over the Board Meeting minutes and then moved on to a big discussion of the OMAS annual air show. The highlight was talking about what was losing money for the air show. I think it was a general consensus we would lose the raffle, as it seemed to be what was the big loser. It was talked that we might have one raffle for the kids, possibly a small helicopter that someone would help the kids fly during the air show and that the one of the kids would win at the end of the show.**

**Chris talked about safety issues at the field and he talked about locking up after we are done flying. Seems that the club house has been left open a few times.**

**It really was a fun day in spite of the fact nobody flew because of the weather.**
